

**SCHAEFER**  
TECHNOLOGIES, INC.

for your  
**Pharmaceutical & Nutraceutical  
Machinery Requirements**

Schaefer Technologies, Inc. is USA, multi-dimensional, international manufacturer. Founded in 1933, we are a family owned business spanning three generations. From our 60,000 square foot facility – we are poised to provide the solutions and support you require.

Our most powerful tool - Commitment. The team and technology, brought together in a single entity. Combining these resources empowers Schaefer Technologies to deliver on our promises. It's a corporate philosophy that has built one of today's American success stories.

**Operator Expertise.** The opposite of operator error. When an organization must deliver on its promises, people make the difference.

Repeat business is a product of skilled technicians doing their jobs right, the first time.

The success of Schaefer Technologies stems from the skills of our people. Since our first day, we have focused

on maintaining a team that's ready to respond. Expertise that starts with training. Skills

polished by experience. Together, time and talent are manifest in the heads and hands of master craftsmen. Every task that passes through the doors of Schaefer Technologies

benefits from the decades of experience compiled by our people. It's a pool of knowledge we draw upon daily. For over six decades, we've said there's never time to do the job over - but there's always time to do the job right ... when you have the people to get the job done.
